# HI GANG !!

Hi Gang,

It doesn't seem five minutes since I last put finger to keyboard, in an attempt to do another 'Tosh Tales'. I'm am more than happy that it has taken off, and that is wholly down to you the reader. I have, however, been late in starting this issue. The reason is that I've been trying to finish off my new solo CD, 'Wishstone'. Its been far to long in coming. I can now say that the CD will be on sale within the next month, for definite. The story so far.....

I was quite happily recording songs over the last two years. I had five rough mixes ready for Nick and Mario to do their bits and continued to write, not realising that even though I'd kept the first five rough tracks, I, like an idiot, had not backed up the master studio recordings. And I had managed to delete them from the computer.

Well it was my first go. What with normal gigging and family stuff time was flying past and the release date for the CD was getting put back. It was when I missed the last due date that I finally decide that enough was enough.

But then I had a running battle with my head. You see I had recorded twelve tracks and then wrote a thirteenth song , which I could not ignore. So ensued a fourteenth song because I am a little superstitious and would not just put thirteen on the CD. Then there is the artwork, I still wasn't sure what to have on the CD sleeve so I was caught up doing that....&.....

**SHUT !! UP !!  
AND STOP DRIVELLIN'  
AND GET ON WITH IT,  
LOVELY BOY !!!!**

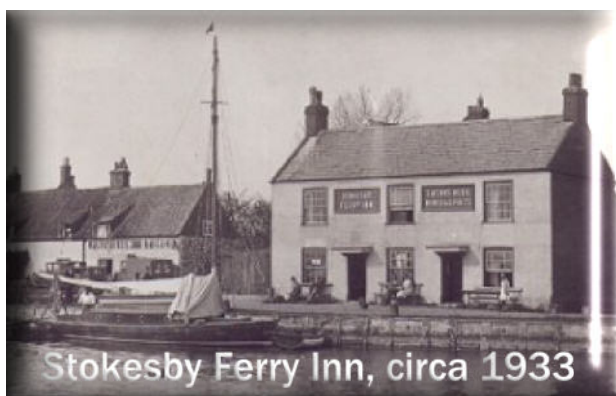

Oh well I suppose I will have to finish there. Pre- orders for 'WISHSTONE' will now be taken at gigs or online, price £6.
